

## SUMMARY

---

Alex joined Regeneris having completed his MSc in Urban Regeneration at UCL. Since joining he has worked on a wide range of assignments for both public and private sector clients. This includes economic impact assessments, socio-economic analysis, economic strategies and project evaluations. He is experienced at gathering and analysing socio-economic data and policy information from a wide range of sources, and undertaking consultations with a variety of different stakeholders.

## SKILLS AND EXPERIENCE

---

### ECONOMIC IMPACT ASSESSMENT

Alex has experience in undertaking economic impact assessments and providing a range of output figures to inform options appraisals, impact assessments and case-making proposals. This includes analysis of economic, financial and commercial outcomes using in-house technical models. Recently he has provided analysis and insight for the Meridian Water Meanwhile options appraisal and Met Line Extension options appraisals to support public sector decision making. He has also contributed to the production of the Southall Green and Euston Station Impact assessments, demonstrating the economic and commercial value of each scheme for private sector clients.

### SOCIO-ECONOMIC ANALYSIS AND PRESENTATION

Alex has considerable experience in carrying out and drawing conclusions from detailed socio-economic analysis. This includes reviewing a range of national and local datasets, offering robust insight into the strengths and weaknesses of localities, focussing on economic activity, labour skills, housing affordability and sector concentration. He has completed significant socio-economic baselining to support the production of the Milton Keynes Local Economic Assessment and to support priorities for the Clerken-

### PROGRAMME EVALUATION

Alex has worked with several public sector clients to complete evidence based programme evaluations using both policy and data analysis. He has contributed to the evaluation of the Mayors Outer London Fund programme and a review of the social and economic impacts of the Mayor's Regeneration Fund. Alex led on a number of individual projects, drawing from a range of quantitative and qualitative information required to formulate a balanced response.

### ECONOMIC STRATEGY

Alex has worked on a number of economic strategy proposals requiring various forms of work, including research into relevant policy, comparator analysis and future projections. He worked on the Hounslow Sector Strategy, carrying out consultations with local businesses to understand their future needs. Recently he has supported the Dymchurch Economic Strategy, providing insight on a range of economic baseline conditions, proposing key thematic areas for future intervention, and formulating examples of suitable short to long term projects.
